Jet's Pizza Embraces Technology With Point of Sale Provider Revention
08/20/2012

(Press Release) HOUSTON, TX, August 17, 2012--Jet's Pizza, the seventeenth largest pizza chain in the nation, with a current store total of over 250 locations, continues exponential growth with point of sale partner Revention. Jet's approved Revention as a POS provider in August of 2011 and since then Revention is being used in over 100 Jet's locations. The chain has enjoyed consistent growth within the pizza segment for years and plans to continue that growth by implementing new technologies such as online ordering.

Revention's online ordering solution, HungerRush, grows more dynamic every day within Jet's operation. It is currently providing online ordering services for over 80 Jet's locations, with more coming online weekly. Jet's locations using HungerRush have generated over 220,000 online orders in the first seven months of 2012, touting a notable \$21.51 check average compared to the in store check average of \$16.00. "HungerRush makes online ordering simple for our franchise community to manage," stated John Jetts. "HungerRush is completely integrated with our Revention point of sale systems."

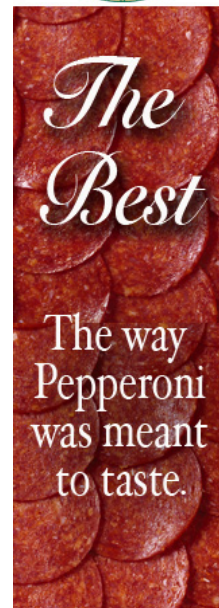

Many Jet's franchisees are using Revention's Enterprise Mobile App to stay connected with the stores' vital statistics during the business day. "I am checking my stores sales and labor everyday all day," says Paul Dudgeon, "I can't imagine not having this data at my fingertips real time." "Revention is proud to be partnered with a franchise as successful as Jet's Pizza," says Laura Gaudin, Revention Product Manager. "We believe Jet's offers a superior product to their customers, and we in turn want to provide them with superior technology so they can continue the expansion and growth of Jet's Pizza nationwide."

About Jet's Pizza

The Jet's Pizza concept of franchising began in 1990 and has grown to more than 250 franchises throughout fifteen states: Michigan, Alabama, Florida, Georgia, Illinois, Indiana, Kentucky, Minnesota, North Carolina, Ohio, Tennessee, Texas, Wisconsin, South Carolina, and Virginia. Jet's attitude can be summed up in the company's simple slogan "Life is short. Eat better pizza." For additional information go to JetsPizza.com
