

The Help You Need!

Total service continues with oneCall, our technical support hotline... providing you with real time telephone support, seven days a week, eighteen hours a day. You are only oneCall away from our knowledgeable staff of specialists

Web Technology.

oneCall employs state of the art technologies to serve you. Searchable FAQ's are available for download directly to you (Adobe PDF format) on www.onesystem.com support area. Support specialists utilize our web-based system, oneLog to track all open trouble tickets. We are able to access your systems both via the Internet or dial-up modems anywhere in the world.

Customer Service Bulletins!

Throughout the year our oneCall subscribers receive CSB documents outlining tips, tricks and real-life solutions to actual operational and marketing issues. CSB documents are available by Fax or e-mail. You choose the format!

Software Updates

oneCall technicians work with customers to implement new features and software updates. oneCall now offers the oneSoft annual upgrade program giving you a fixed budget for all of your software needs.

ONE CALL does it ALL!
